# Letter from the Editor

## Class of 2020,

The 144th volume of the “Epitome” yearbook is a compilation of Lehigh traditions and a representation of Lehigh pride from our campus throughout most of the 2019-2020 academic year. We hope that you find yourselves reflecting on all of the wonderful memories made at Lehigh. We also hope that this book will perpetually remind you of the fun-filled moments you spent on campus. The historic COVID-19 pandemic that interrupted our campus experience should not taint our memories of our Lehigh life.

As you take yourself through these pages, our goal is to bring you through your life as a Lehigh student. We start out on the front cover with a majestic sunrise representing the start of your Lehigh experience. As you turn the pages through the book, you will notice the movements of the sun around the campus buildings representing our cycle as a Lehigh community, concluding with the sunset on the back cover. While the Class of 2020’s senior year ended in a most unanticipated and disappointing way, we hope that looking through this book brings you warmth and reminds you of our wonderful Lehigh home.

There are several instrumental people I would like to thank because without their help the book would not have been possible. First, I would like to thank the yearbook staff for all of their work and determination in publishing this book during uncertain times. I would like to thank the Balfour team, Ed Patrick and Matt McLaughlin, who helped us navigate StudioWorks+ to design the book and provide guidance throughout the publication process. I would like to thank the Lifetouch photography team that aided in photographing the athletics teams, portraits, and many events throughout the book. Thank you to Justin Lafleur and Sports Information for their invaluable help with the athletics section and the photography provided. Thank you to Christa Nue for all of her contributions with campus photography at various events and the COVID-19 section. Finally, I want to thank our yearbook adviser, Jessi McMullan, whose leadership, support, and guidance made this publication possible. I am so grateful to have had everyone’s support in creating a yearbook unlike any other in Lehigh history, one that was compiled away from our vibrant campus life. The 144th volume surely would not have been possible during these unprecedented times if not for the help and support of this group.

We wish all of our graduates luck and success in the years to come. We hope this volume provides you with meaningful memories from this past academic year, especially considering how it transpired in such a historic manner.

Remember that your Lehigh Family will always be a part of your sunrises and sunsets, and that our mountain in South Bethlehem is always waiting for you.

Sincerely,

Ryan Saks

# Move In Day

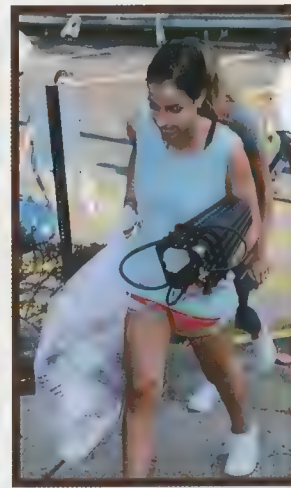

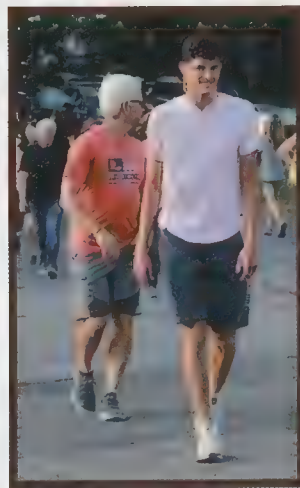

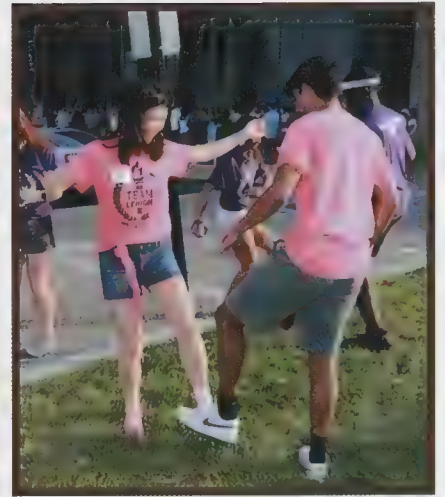

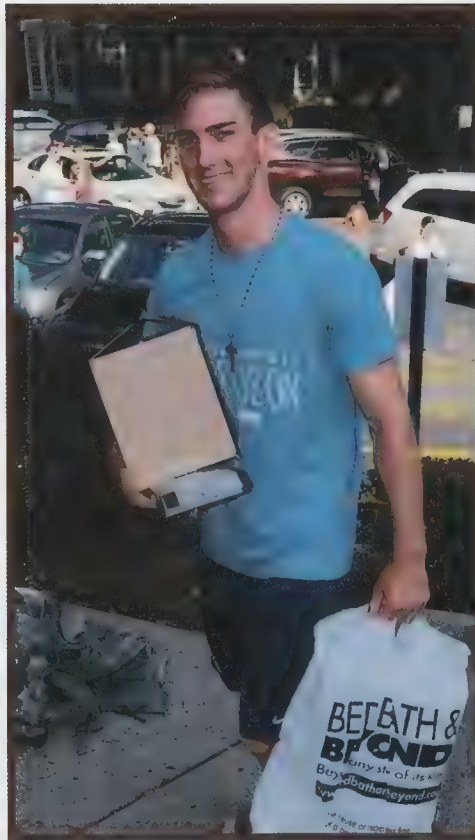

August 22

Orientation Leaders, Greek Life, and student representatives from other organizations on campus welcomed Lehigh's first year students to their new home for the next four years!

The new Mountain Hawks were greeted with chanting songs and smiles from upperclassmen while bringing their belongings up to their dorms to meet their hall mates and Gryphons for the first time.

# ALADdin

August 23

Almost 1,000 students came out to Lehigh After Dark's 2019-2020 academic year kick-off event during orientation week: aLADdin "A Whole New World!" This event featured an outdoor movie theater on the UC Front Lawn to view the new "Aladdin" movie, a stunt jump, a psychic, a tarot card reader, henna, food trucks, and "magic carpet" towel giveaways.

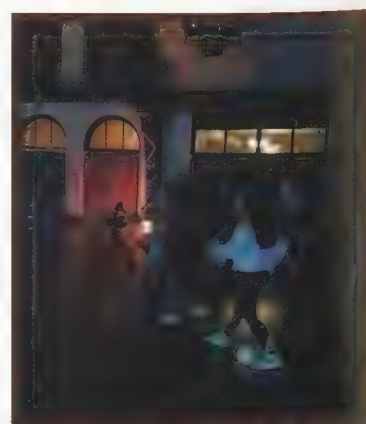

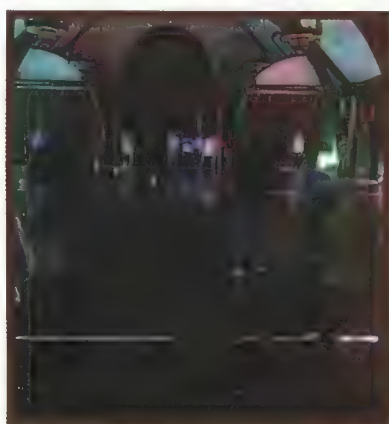

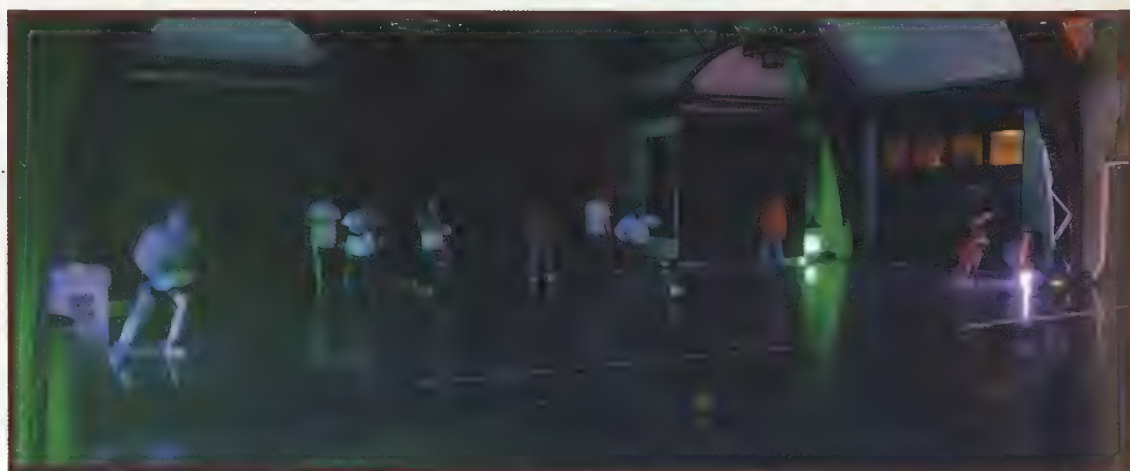

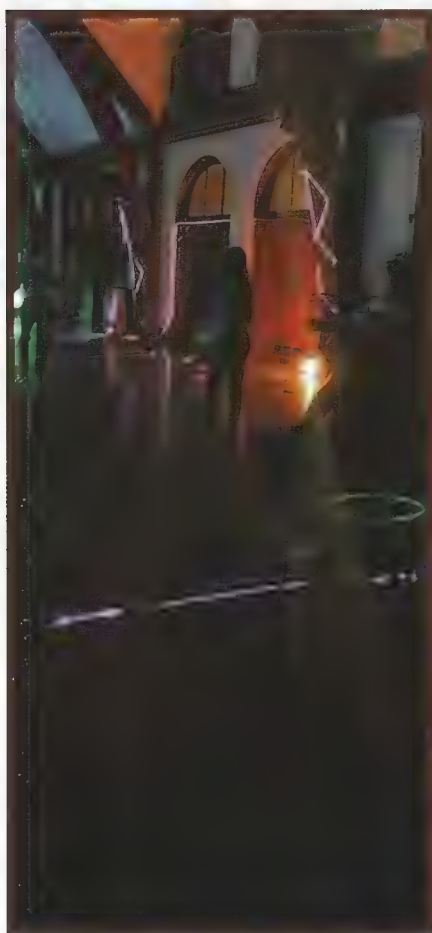

# Glow in the Dark Dodgeball

October 19

Lehigh After Dark's Glow in the Dark Dodgeball was co-sponsored by Dance Marathon/Hawkathon. Students participated in the event by creating teams and playing dodgeball with friends under neon lights! Students were encouraged to wear white for an extra neon experience. Free food was provided for all participants.

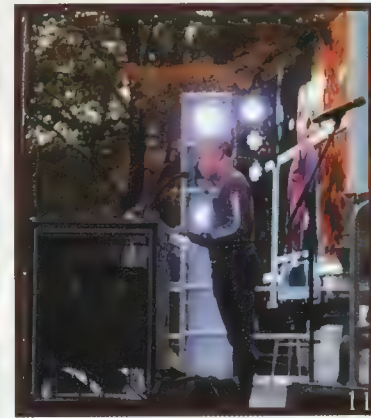

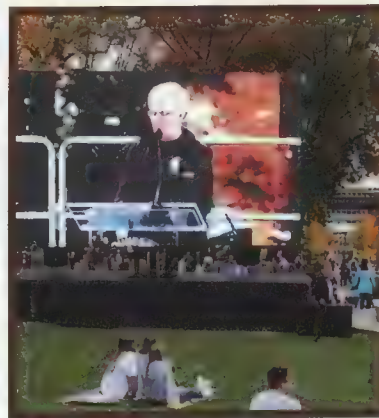

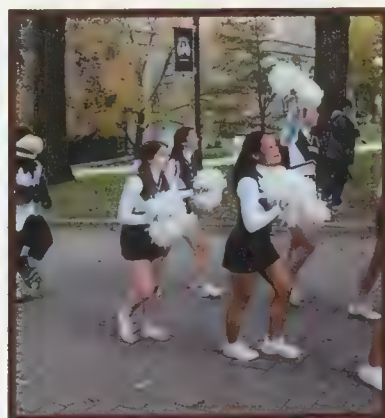

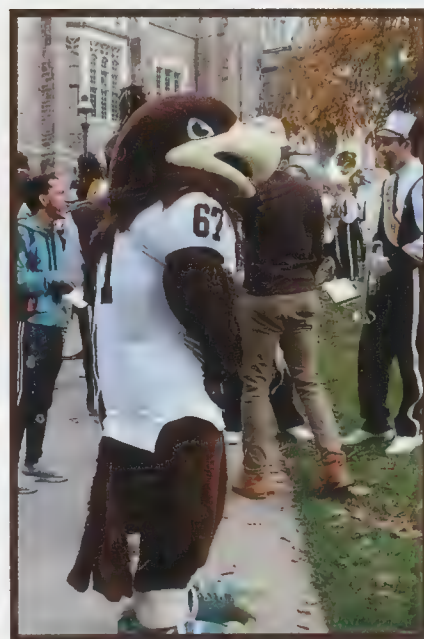

October 25

# Founder's Weekend

Each October since 1879, Lehigh has commemorated Asa Packer and his impact with a Founder's Day celebration. In 2019, the tradition was expanded into a full weekend of festivities that included Family Weekend and the Brown & White BBQ. The come-one, come-all BBQ — complete with food trucks, student entertainment, and plenty of Lehigh tradition — featured recognition of Lehigh leaders of all generations and the unveiling of the Class of 2020's numbers at the Clayton University Center.

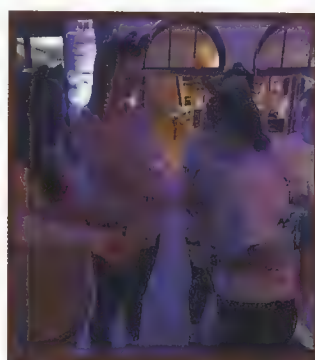

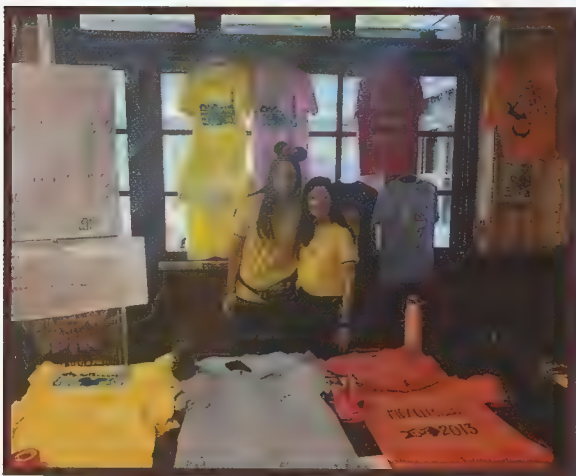

# Hawkathon

November 2

Hawkathon is an annual 12-hour dance marathon that raises funds for the Children's Hospital of Philadelphia's Child Life Department. Patients at CHOP and their families, called "miracle families," also attended and got to play games with attending students. Greek Life got involved by running games. Over the full year, they raised \$33,165.58 "for the kids" (FTK).

November 19

# Crush Lafayette

The American Society of Civil Engineers chapter at Lehigh hosted their annual event of a “Lehigh” steel I-beam crushing a “Lafayette” beam in Fritz lab. This annual Le-Laf spirit week event was in Fritz Laboratory using the five million pound testing machine to crush Lafayette.

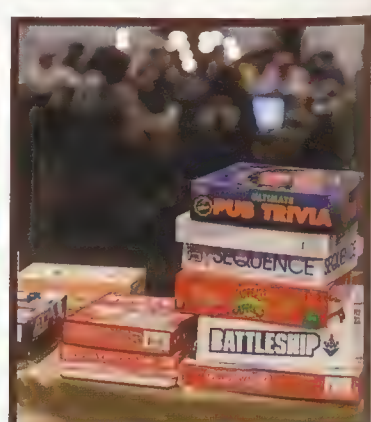

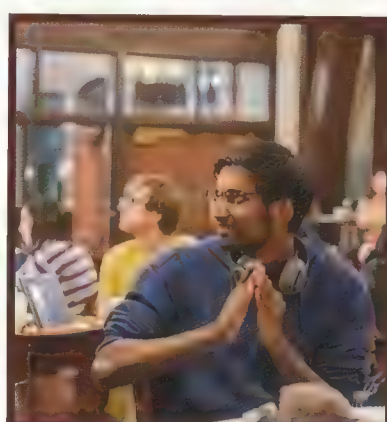

# LAD Greatest Hits

November 21

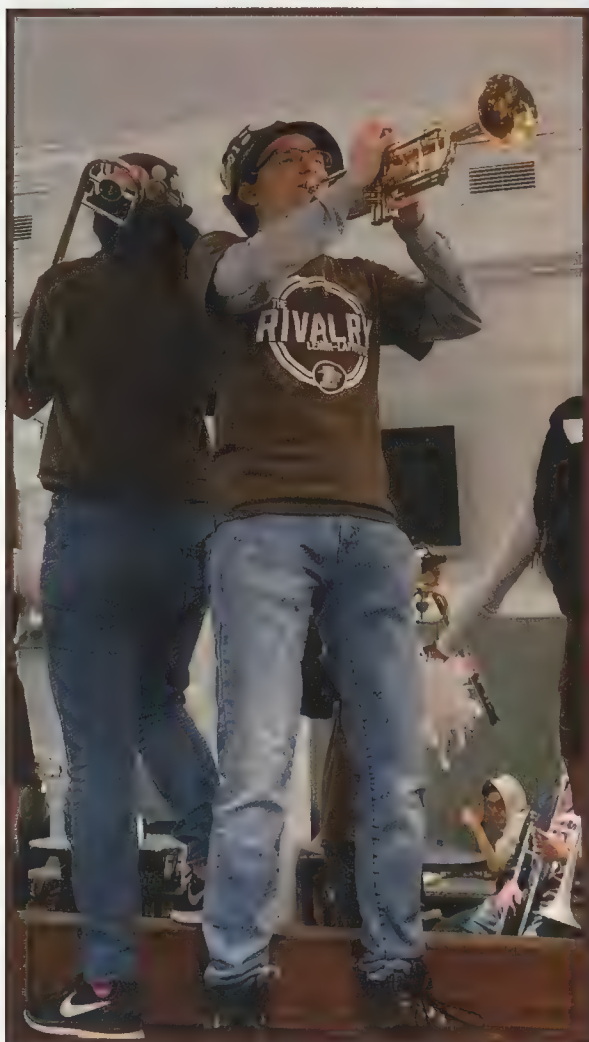

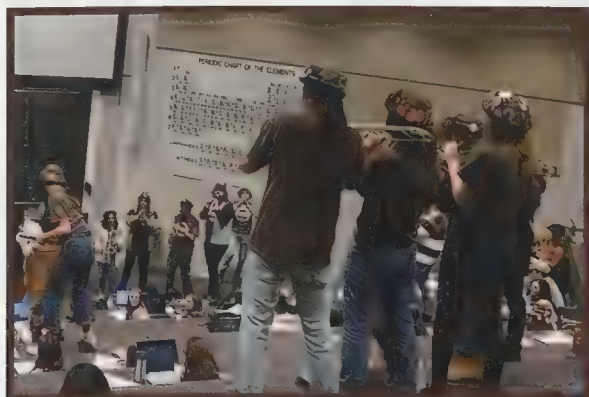

One of Lehigh After Dark's (LAD) featured events for Le-Laf weekend was LAD Greatest Hits.

All in one night, LAD presented six of their most popular events: Fight Night kickboxing at Taylor Gym, Wingo, Karaoke, Extreme Board Games, DIY, Trivia, a Smash Tournament, and (of course) free food! Students could pick their favorite events to attend or go to them all!

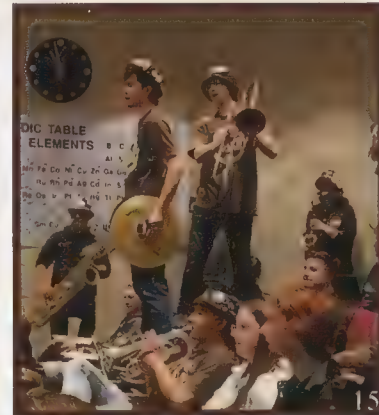

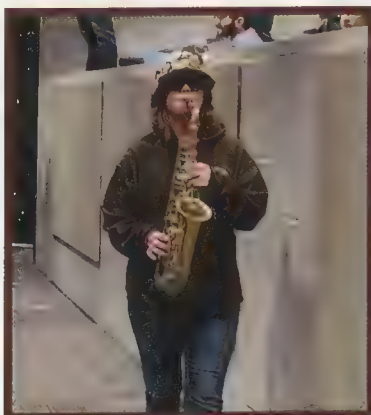

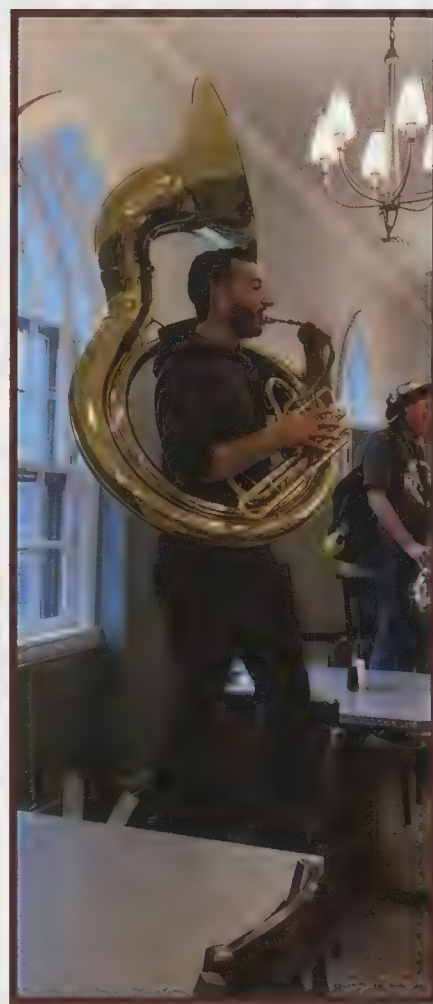

# Eco-Flame

The Marching 97 bring psyche to classrooms, dining halls, the library, and even the gym during Eco-Flame. Although it was a little rainy, they continued their leg-liftery while playing Lehigh's fight songs around campus in the yearly tradition before the Lehigh-Lafayette rivalry football game.

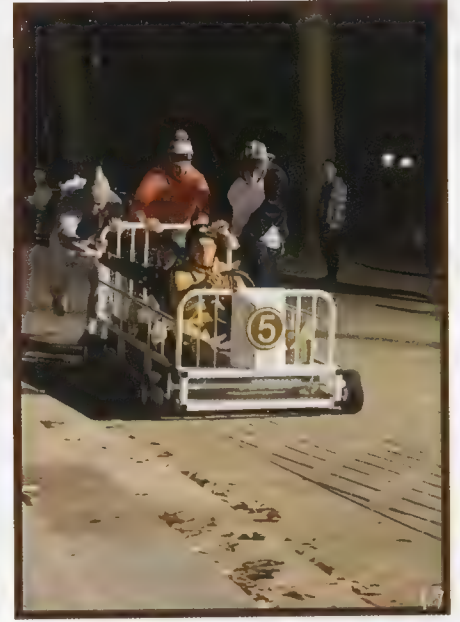

# Bed Races

November 23

Bed Races is one of Lehigh's most beloved traditions. Every year during Spirit Week, teams of Lehigh students (and a few daring staff) compete by racing beds along Memorial Walkway. This year featured entertainment by DJ Zen and the Lehigh Melismatics, plus a spirit week shirt giveaway. Team "Puck" (Lehigh Hockey) took the trophy this year, and "Happy Little Accidents" won the costume contest with their tribute to Bob Ross!

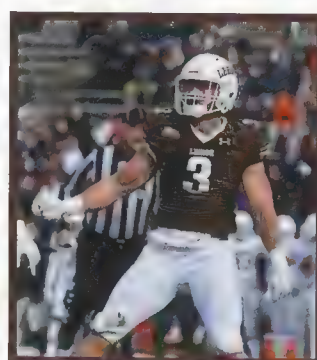

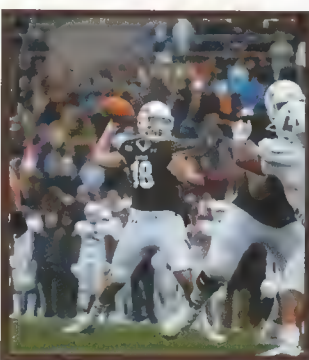

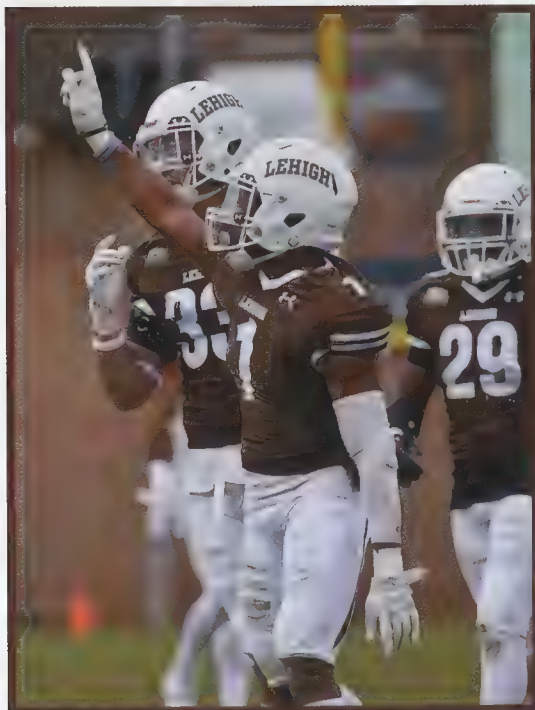

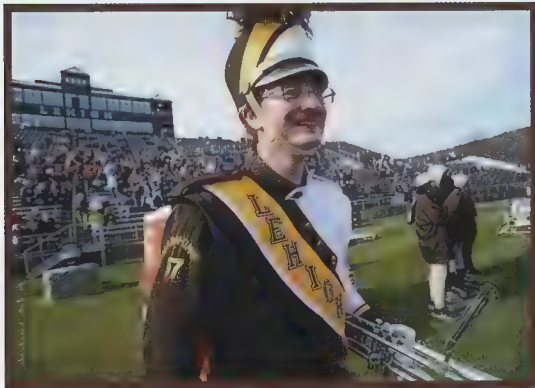

# 155th Lehigh vs. Lafayette Rivalry Game

November 23

In a season where seemingly every game was not decided until the very end, the 155th edition of Lehigh-Lafayette was no different. Senior Austin Hennig's third field goal of the game gave the Mountain Hawks a 16-14 lead with 3:03 to play, but the Leopards answered with a nine-play, 50-yard drive as Jeffrey Kordenbrock's 28-yard field goal with 47 seconds remaining lifted Lafayette past Lehigh 17-16 at Goodman Stadium.

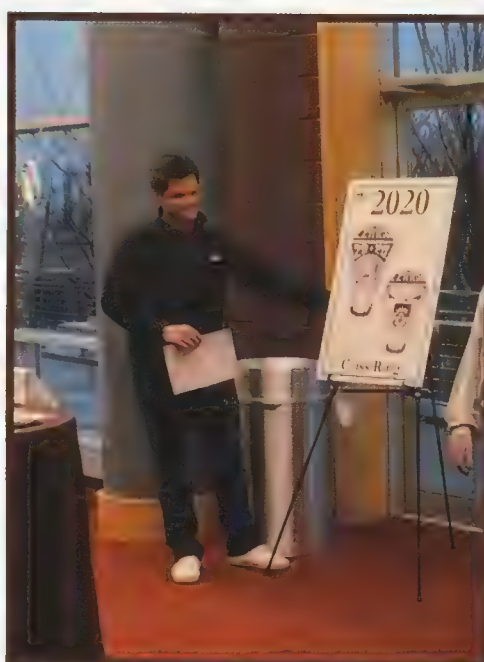

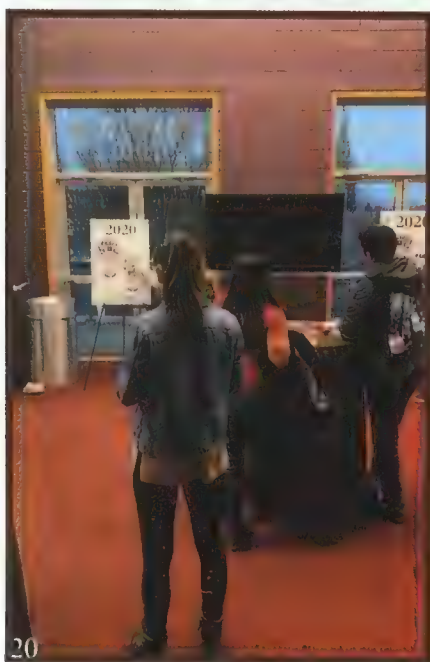

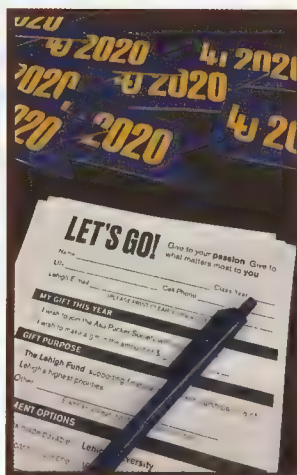

# 100 Days Until Graduation February 6

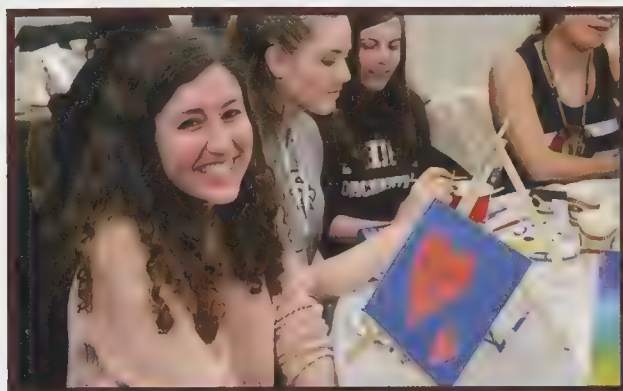

To mark the last 100 days in the countdown to graduation, the Association of Student Alumni's Senior Committee hosted an event to bring the Class of 2020 together. Held in Zoellner's Goodman Lobby, the celebration featured food, music, a photobooth, Class Gift info, and giveaways. There were drawings for chances to win a class ring, and cap and gown rentals, courtesy of the Young Alumni Council. The highlight of the event was the unveiling of the Class of 2020's custom class ring, designed by the ASA Senior Committee!

The students made everything from a bookcase to wall art, and the winning team created a side table from bottles and boxes.

# COVID-19

On March 11, 2020, the World Health Organization declared the novel coronavirus a global pandemic. The same day, Lehigh announced that students would not be returning to campus for the two weeks following Spring Break. This message was not surprising to many students, but the decision still came with much disappointment.

Indicative of how quickly things were changing worldwide, on March 12, the university officially announced that students would not return to campus for the remainder of the semester. This announcement came to students via email while most were still on Spring Break or preparing to return to campus. Students had to face the reality of packing up their belongings and saying goodbye to friends eight weeks earlier than anticipated.

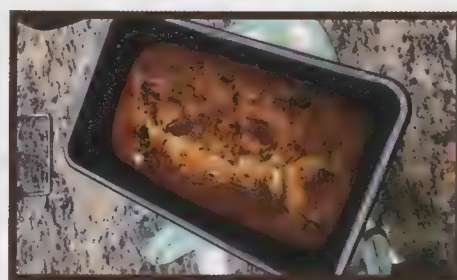

This section of the book is a collection of various perspectives from people around campus. The photos are a compilation of student submissions, Ryan Saks', and Christa Neu's documentation of campus after students' departure.

I am a graduating senior as well as an international student from China. Since I am in the process of applying for a working visa, I cannot leave the U.S. (many international students choose to go home). After Lehigh announced moving to remote learning, I stayed in Bethlehem. I tried to keep myself busy by baking and watching shows. I limited my interactions to three friends who are roommates. It's very sad to think that I am a senior and I'm missing many of my "lasts." My family members, who are still in China, are very concerned about me since I am here by myself and they are too far to help me. I call my parents at least once every day to keep them updated with my life and to inform them that I am safe.

"We are being tested in new ways, but years from now, when we reflect on how our Lehigh community responded, we will do so with pride. You are rising to these challenges, and showing the world our resilience, our creativity, and our drive to get it done."

President John D. Simon '19P in a video address recorded on March 18, 2020

Journalism professor of practice

Newspapers have long been dubbed “the daily miracle,” and the sentiment of the moniker remains true even in the digital age.

As faculty adviser to The Brown and White since spring 2014, I’ve become familiar with a daily display of dedication from our staff of 150 or more. I tell them often: “You amaze me, but I’m not surprised.”

So, when news of Lehigh’s closure due to the COVID-19 pandemic hit on March 11, our editors were already prepared for business as usual.

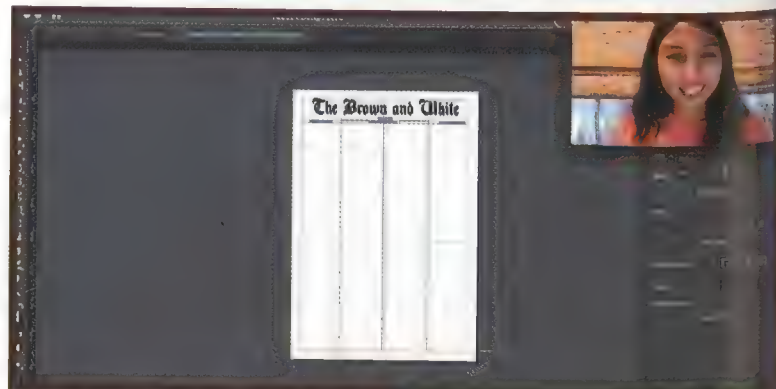

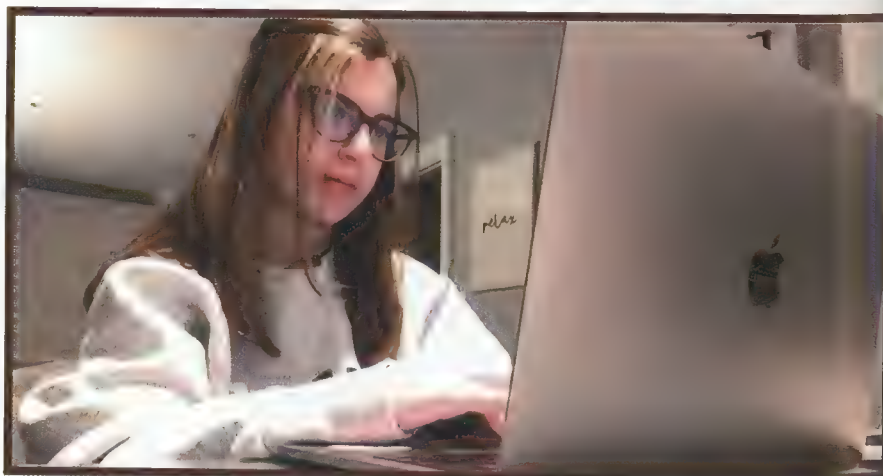

We just weren’t quite sure how it would look.

In hindsight, it looks like 12 print editions written, illustrated, and designed entirely remotely and from homes around the world. It looks like hour-by-hour breaking news coverage online. It looks like the most collaborative, determined, and heartwarming display of teamwork I’ve witnessed in my time as a professor.

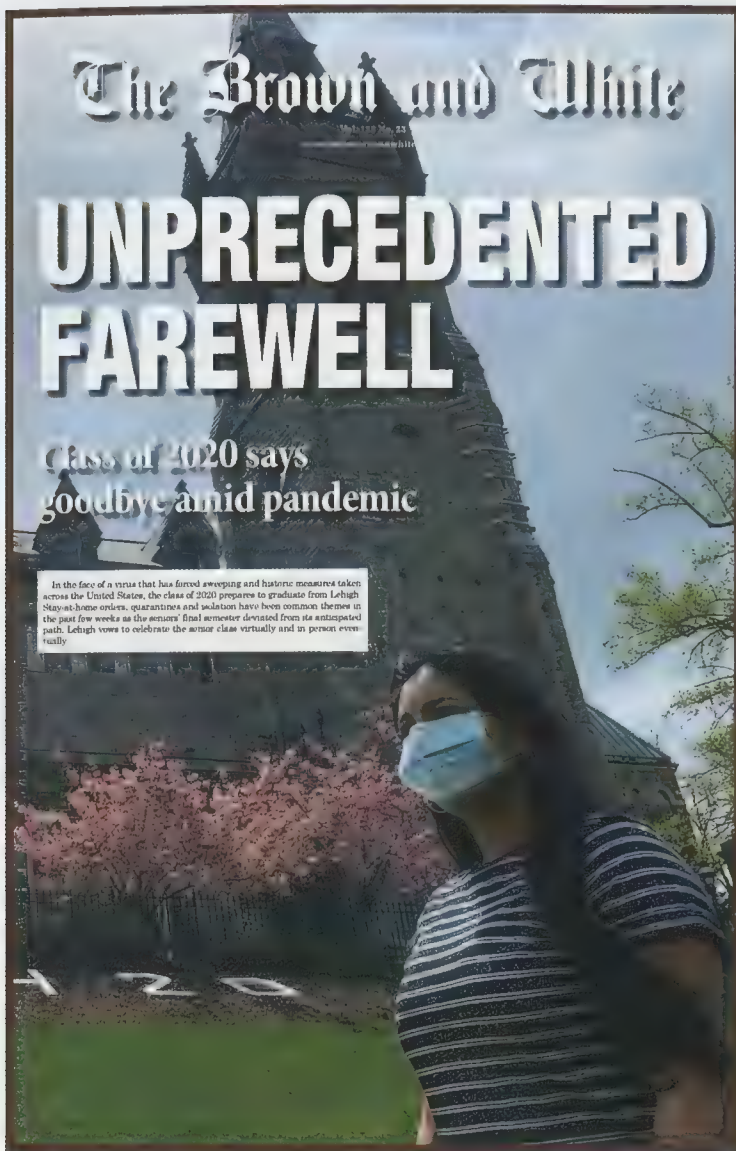

I am grateful, especially, to our editor in chief, Jake Epstein ’20, for his consistent leadership; to our design editor, Nicole Walker ’20, for her late, late nights assembling the print pages; and to our entire staff of editors, reporters, photographers, and videographers for making it happen.

Since 1894 — through two world wars and now a pair of pandemics — The Brown and White has delivered its readers “All the Lehigh News First” without pause.

Amazing. But not surprising.

“As a result of the coronavirus outbreak, Lehigh seniors are left to reflect on fond college memories before they were sent home — as well as memories they didn’t have the chance to make.”

Jessica Post, associate community engagement editor  
for The Brown and White

COVID-19 has impacted my day-to-day life tremendously in so many ways, including as a student and as a leader in Lehigh’s Greek community. My daily routines have shifted from living in the ZTA house with 30 of my closest friends, studying in FML, and being able to have a seemingly normal day-to-day life, to living at home with the rest of my family and trying to continue to study at home for all my classes with Zoom sessions and keeping up with friends through Facetime calls. As president of ZTA, COVID-19 has also changed the way our chapter is functioning. Being unable to hold sisterhood events and new member education on campus has led us to think outside the box to come up with ideas to help sisters keep in touch including online game tournaments, social media challenges, and having fun chapter meetings on Zoom. I’ll always remember this as a challenging and very different time, but I am looking forward to when I can finally return to campus with the rest of the Lehigh community.

When I was led to take a leave of absence for spring '20, I had no idea I'd be missing out on the most difficult and disappointing semester any college student has ever experienced. Fall '19 was not easy for me, so I was grateful to be relieved of the academic pressure during a tough moment in time, but I still faced a different challenge posed to me in living back home. Being separated from my friends and the independence of college showed me how much I had to mature and face the reality of becoming a responsible adult. In the first few weeks of 2020, I managed to connect with a church community, get a job in wholesale, and create a plan to finish my degree. COVID-19 however, had different plans, as I was forced to socially distance myself, deal with scared customers, and postpone my academic plans. All in all, I have been learning how to really connect with people, what it means to work hard, and growing in a way no other circumstance would allow, and in twenty years, I'd like to see this year as the start to the best decade of my life.

## Jacob Saks '22

COVID-19 has affected everyone in a different way, but one thing is uniform, and that is that everyone has been greatly affected.

For me personally I believe the greatest effect on my life was the difference for what I considered normal.

Not too long ago, eating out, going to the gym, and socializing with friends was a typical experience, and now appears to be like a distant paradise. I've found

that the best way to cope with these new circumstances is to look at the situation not as a negative change to my normal life, but as a positive

change to a new life that offers many new opportunities. I've harnessed these opportunities through starting new hobbies, such as painting, creating my own workouts, and making a daily trick shot to post on social media. All of this has helped to build character and strengthen my ability to find fun where it is hard to come by, and hopefully I will be able to take these new talents back into normal life when COVID-19 is a part of the past.

## Sergio Butron '23

Recently, my English 011 class read the classic novel *Frankenstein* by Mary Shelley as part of an assignment. I loved the novel, but toward the end of it, I read a line that defined the entire COVID-19 situation perfectly. It reads:

"Nothing is so painful to the human mind as a great and sudden change."

- Mary Shelley, *Frankenstein*

Change. Like seasons through time, change can be good.

Change can be bad. Change can be chaotic. When I received the dreaded email on Thursday, March 12, 2020 regarding Lehigh's switch to remote learning for the remainder of the semester, it was as if time had stopped, and the pandemic I had been hearing on the news, became real — tangible.

The following day, I quickly moved my belongings out of my dorm. It was surreal. Hours turned into days and the change in my life became evident. I lost motivation to do work. My anxiety and loneliness grew. I lost hope.

However, through the weeks, I found my motivation again.

Hours of Zoom calls, FaceTimes, and calls made me feel less alone. And although the Lehigh community may be far and apart, we and the world are all in this together.

# Pi Beta Phi

The PA Kappa Chapter of Pi Beta Phi was officially chartered on October 25, 1997. As a chapter, we are invested in the happiness and success of our fellow Pi Beta Phi sisters.

Read › Lead › Achieve® is Pi Beta Phi's philanthropic effort, which inspires a lifelong love of reading that can unlock true potential creating a more literate and productive society. Long-lasting friendships and support in times of hardship are just the tip of the iceberg when it comes to the reasons why we are grateful for our sisters and Pi Beta Phi as a whole.

# Psi Upsilon

"United in friendship, Psi Upsilon members aspire to moral, intellectual, and social excellence in themselves as they seek to inspire these values in society." Since Psi Upsilon's birth on Lehigh's campus in 1884, brothers have aspired to instill these values in those that have followed them and even to all those on campus in order to make Lehigh the best place for everyone. Through philanthropy, community service, recruitment, and academics, we lead by example.

# Sigma Phi Epsilon

Sigma Phi Epsilon focuses on helping the community, overall well-being, and most of all, strong brotherhood and friendship. We host events throughout the year to intensify these pillars through our service programs, such as Broughal

Middle School tutoring, our weekly modules, such as a resume workshop, and our awesome events, such as the Crayon function.

---

---

# Theta Chi

Theta Chi has been a part of the Lehigh community since 1942 and prides itself on scholastic achievement, campus involvement, and brotherhood. This year we had great growth in academics, recruitment, philanthropy, and community service. We held our signature philanthropy event — G.I. Theta Chi — raising money and awareness for the U.S.O. We participated in community service events throughout the Bethlehem community such as South Side cleanup, Broughal dinners, and serving dinner at the Victory House.

# Theta Xi

Since 1904, the Theta Xi Eta Chapter has fostered lifelong bonds of brotherhood. Through events such as "Fun and Games" to "Know the House!," we have formed an unbreakable bond. As always, we thank alum Colonel Sanders ("C.S.") for teaching our new members about thermodynamics and exterior clay roofing. *Juncti Juvant.*

# Zeta Tau Alpha

Zeta Tau Alpha has been intensifying friendship, promoting happiness among its members, and building up a noble sisterhood in the world since 1898. We host several events throughout the school year to raise money for our philanthropy such as Think Pink, a Zeta founded organization for breast cancer awareness and education. Being a member of Zeta Tau Alpha teaches women leadership, responsibility, service, humility, loyalty, commitment, and most importantly, love.

# Letter from President Simon

---

## Class of 2020,

You made it! On behalf of Provost Pat Farrell and my entire senior officer team, I congratulate each of you on a job well done.

Yours is the fifth graduating class I have had the privilege of “seeing off,” and to say that your final semester at Lehigh was unlike anything that came before it would be a classic understatement. Our campus community rallied to make the best of a bad situation. Remote learning entered the lexicon — and while it enabled us to complete the academic year and fulfill our educational mission, we would be fooling ourselves if we said that nothing was lost in the process. You know all too well what I’m referring to: a jam-packed Baker Hall for DanceFest ... lounging in the spring sunshine on the UC Lawn ... cap and gown photos at The Lookout ... one more latte from Saxby’s or ice cream cone from The Cup ... the senior toast at the President’s House ... goodbye hugs on the field at Goodman Stadium.

My youngest son likewise experienced an unceremonious end to his undergraduate career, and I will tell you what I told him: Your time in school may have ended in the midst of disruption and uncertainty, but it was not defined by it. You found your voice and you made your mark — in the classroom, in your living groups, in clubs, on athletic teams and on stage, in the community. You forged friendships that will last a lifetime. You are more than ready for whatever the world throws at you. And those hugs at Goodman Stadium? They weren’t canceled, they were merely deferred. Someday soon we will welcome the great Class of 2020 back to South Mountain for a proper send-off. And what a celebration it will be!

In the meantime, you have joined the ranks of the 80,000+ Lehigh alumni the world over. So keep an eye out for brown and white, as I have it on good authority that you can bump into a fellow Mountain Hawk most anytime and anyplace.

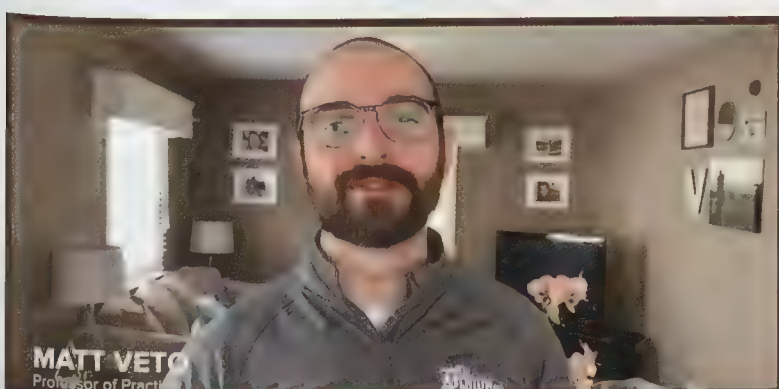

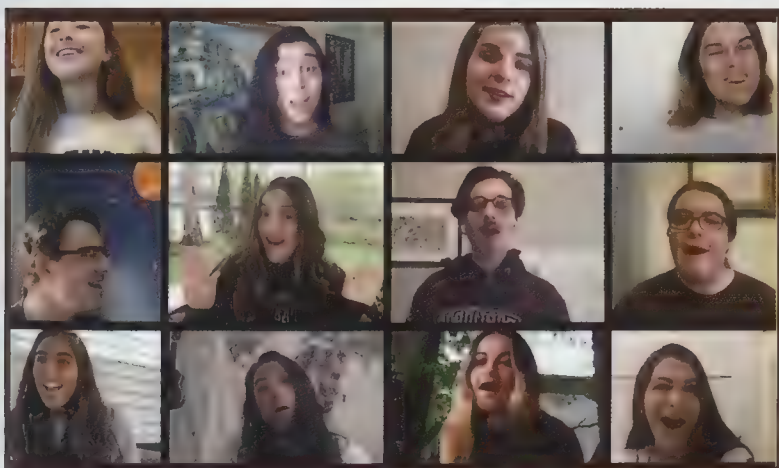

Again, my heartiest congratulations. My wish for each of you is a healthy, happy, and prosperous life. Take care — and I’ll see you soon!

Sincerely,

John D. Simon '19P

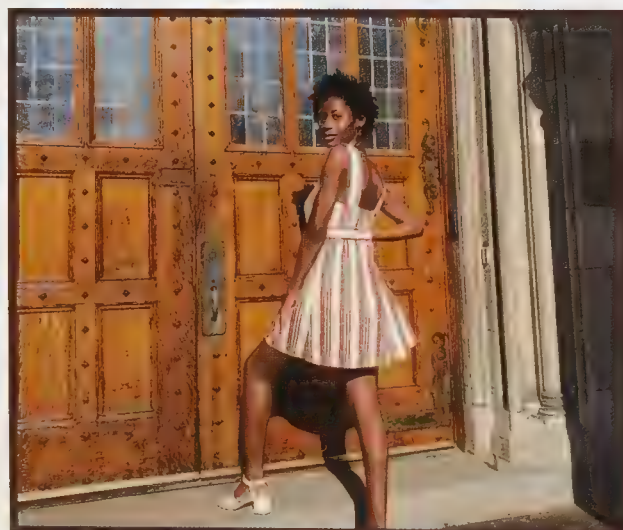

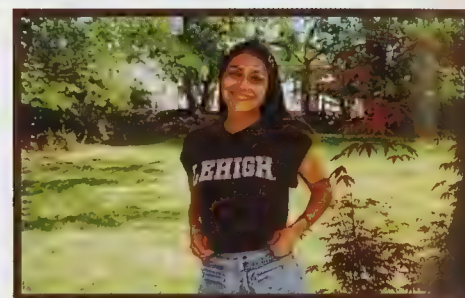

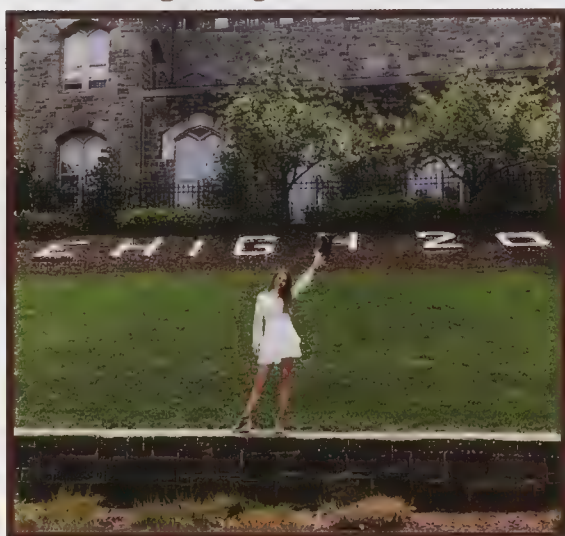

This year's Commencement was held virtually over Zoom because large in-person gatherings were not allowed due to the COVID-19 pandemic. The following photos are screenshots from the virtual Commencement presentation on May 17, 2020 featuring University leadership conferring degrees, as well as faculty members speaking to seniors and student groups performances during the ceremony.

These photos were posted on Instagram and Facebook tagged as #lehighgrad during the Commencement ceremony and throughout the day. Students were encouraged to post pictures of themselves in graduation attire or Lehigh pride gear to be featured in a social media wall streaming during the Commencement.

The 144th volume of the “Epitome” was designed, developed, and published at Lehigh University by a small team of dedicated undergraduates led by their adviser, Jessi McMullan, and their editor-in-chief, Ryan Saks, in Bethlehem, PA. This year, 550 copies were printed by Balfour in Dallas, TX and each book was sold for \$103.35. The book was put together using the Balour StudioWorks+ software. The cover concept was designed by Ryan Saks and the cover itself was designed by Steven Williams. Photos were taken by staff photographers, Lifetouch Studios, or Lehigh staff and students, and are noted in the Table of Contents at the start of the book. The typography is Valencia throughout the book and printed in various point size for headings, and printed in point size 12 for body. The “Epitome” is a student publication and errors may occur. We make every effort to ensure accuracy in our product and apologize for any mistakes made. We cannot offer refunds or reprints.
